

REFLECTIONS

DELTA LIGHT

Looking to complete our portfolio of technical architectural lighting, we challenged our design and engineering team to come up with a set of more decorative and expressive shapes. The result is **REFLECTIONS**, presented for the first time at the Interieur Biennale in Kortrijk (BE).

Reflections is a series of new adventures in luminaire design. A mission to improve the relationships between architect-interiors, designers and visitors. A poetic expression of craftsmanship, light, technology, texture, shape and mood. With these new collections we want to help create the right atmosphere, so that the experience of every space is filled in a warm and unique way. Enjoy.

Looking to complete our portfolio of technical architectural lighting, we challenged our design and engineering team to come up with a set of more decorative and expressive shapes. The result is **REFLECTIONS**, presented for the first time at the Interieur Biennale in Kortrijk (BE).

Reflections is a series of new adventures in luminaire design. A mission to improve the relationships between architecture, interiors, its users and visitors. A poetic expression of craftsmanship, light, technology, texture, shape and mood. With these new collections we want to help create the right atmosphere, so that the experience of every space is filled in a warm and unique way. Enjoy.

SOIREE

SOIREE

The **SOIREE** range was designed to be voluminous, lightweight and transparent. Its sophisticated form creates a dense and decorative effect, filled with a warm light.

The interaction between the pure circular and rectangular forms, with the warm light sources and the symmetric configurations, triggers a dynamic tension.

The **SOIREE** takes its inspiration from many angles. From the play of light and shadow in architecture, to natural light effects, the shape of everyday objects and sculptural art. The result is a nest of light, made of circles or rectangles, both structural and decorative, generating a seductive luminous effect. Even when not turned on, they bring texture and character to rooms, defining different areas with small and large contemporary pendants.

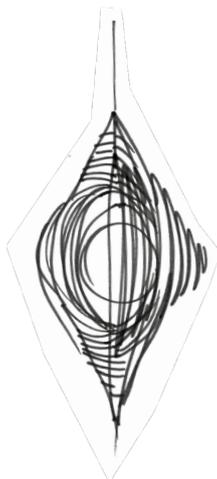

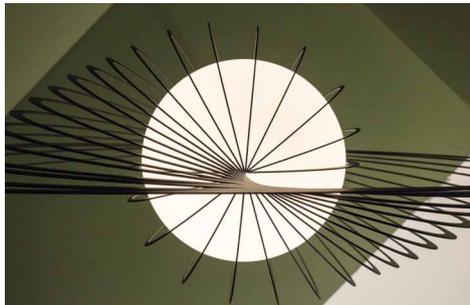

SOIREE R

The cluster of black circles are in contrast to the classic spherical mood of the inside light source, making the round **SOIREE** a unique object. Either with a bulb or milky-glass light at its centre, the **SOIREE** presents itself like a luminous star wrapped by concentric overlapping orbits. The light adds a warm glow to its sculptural cage, resulting in a unique dégradé effect, peeping through the circles to spread softly into space.

The **SOIREE** is an entire family of versatile suspensions for large or small spaces. Both the round and rectangular versions come in multiple sizes and 2 colours – black or the unique Delta Light Flemish Gold®. In both shapes you have the flexibility to choose for a milky-glass sphere at its center, or to opt for an E26 bulb of your preference.

The blown glass diffuser in the centre offers subtle nuances thanks to its satin-like finish, in contrast with its more expressive outer cage.

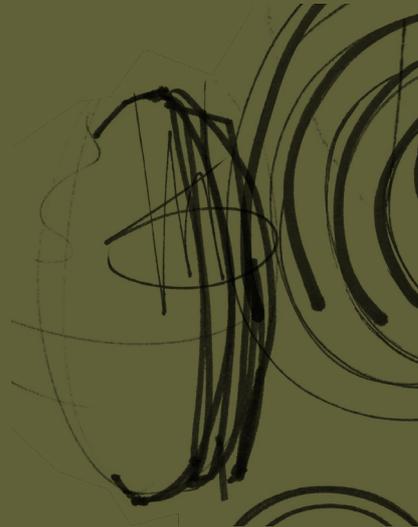

SOIREE R

SOIREE R

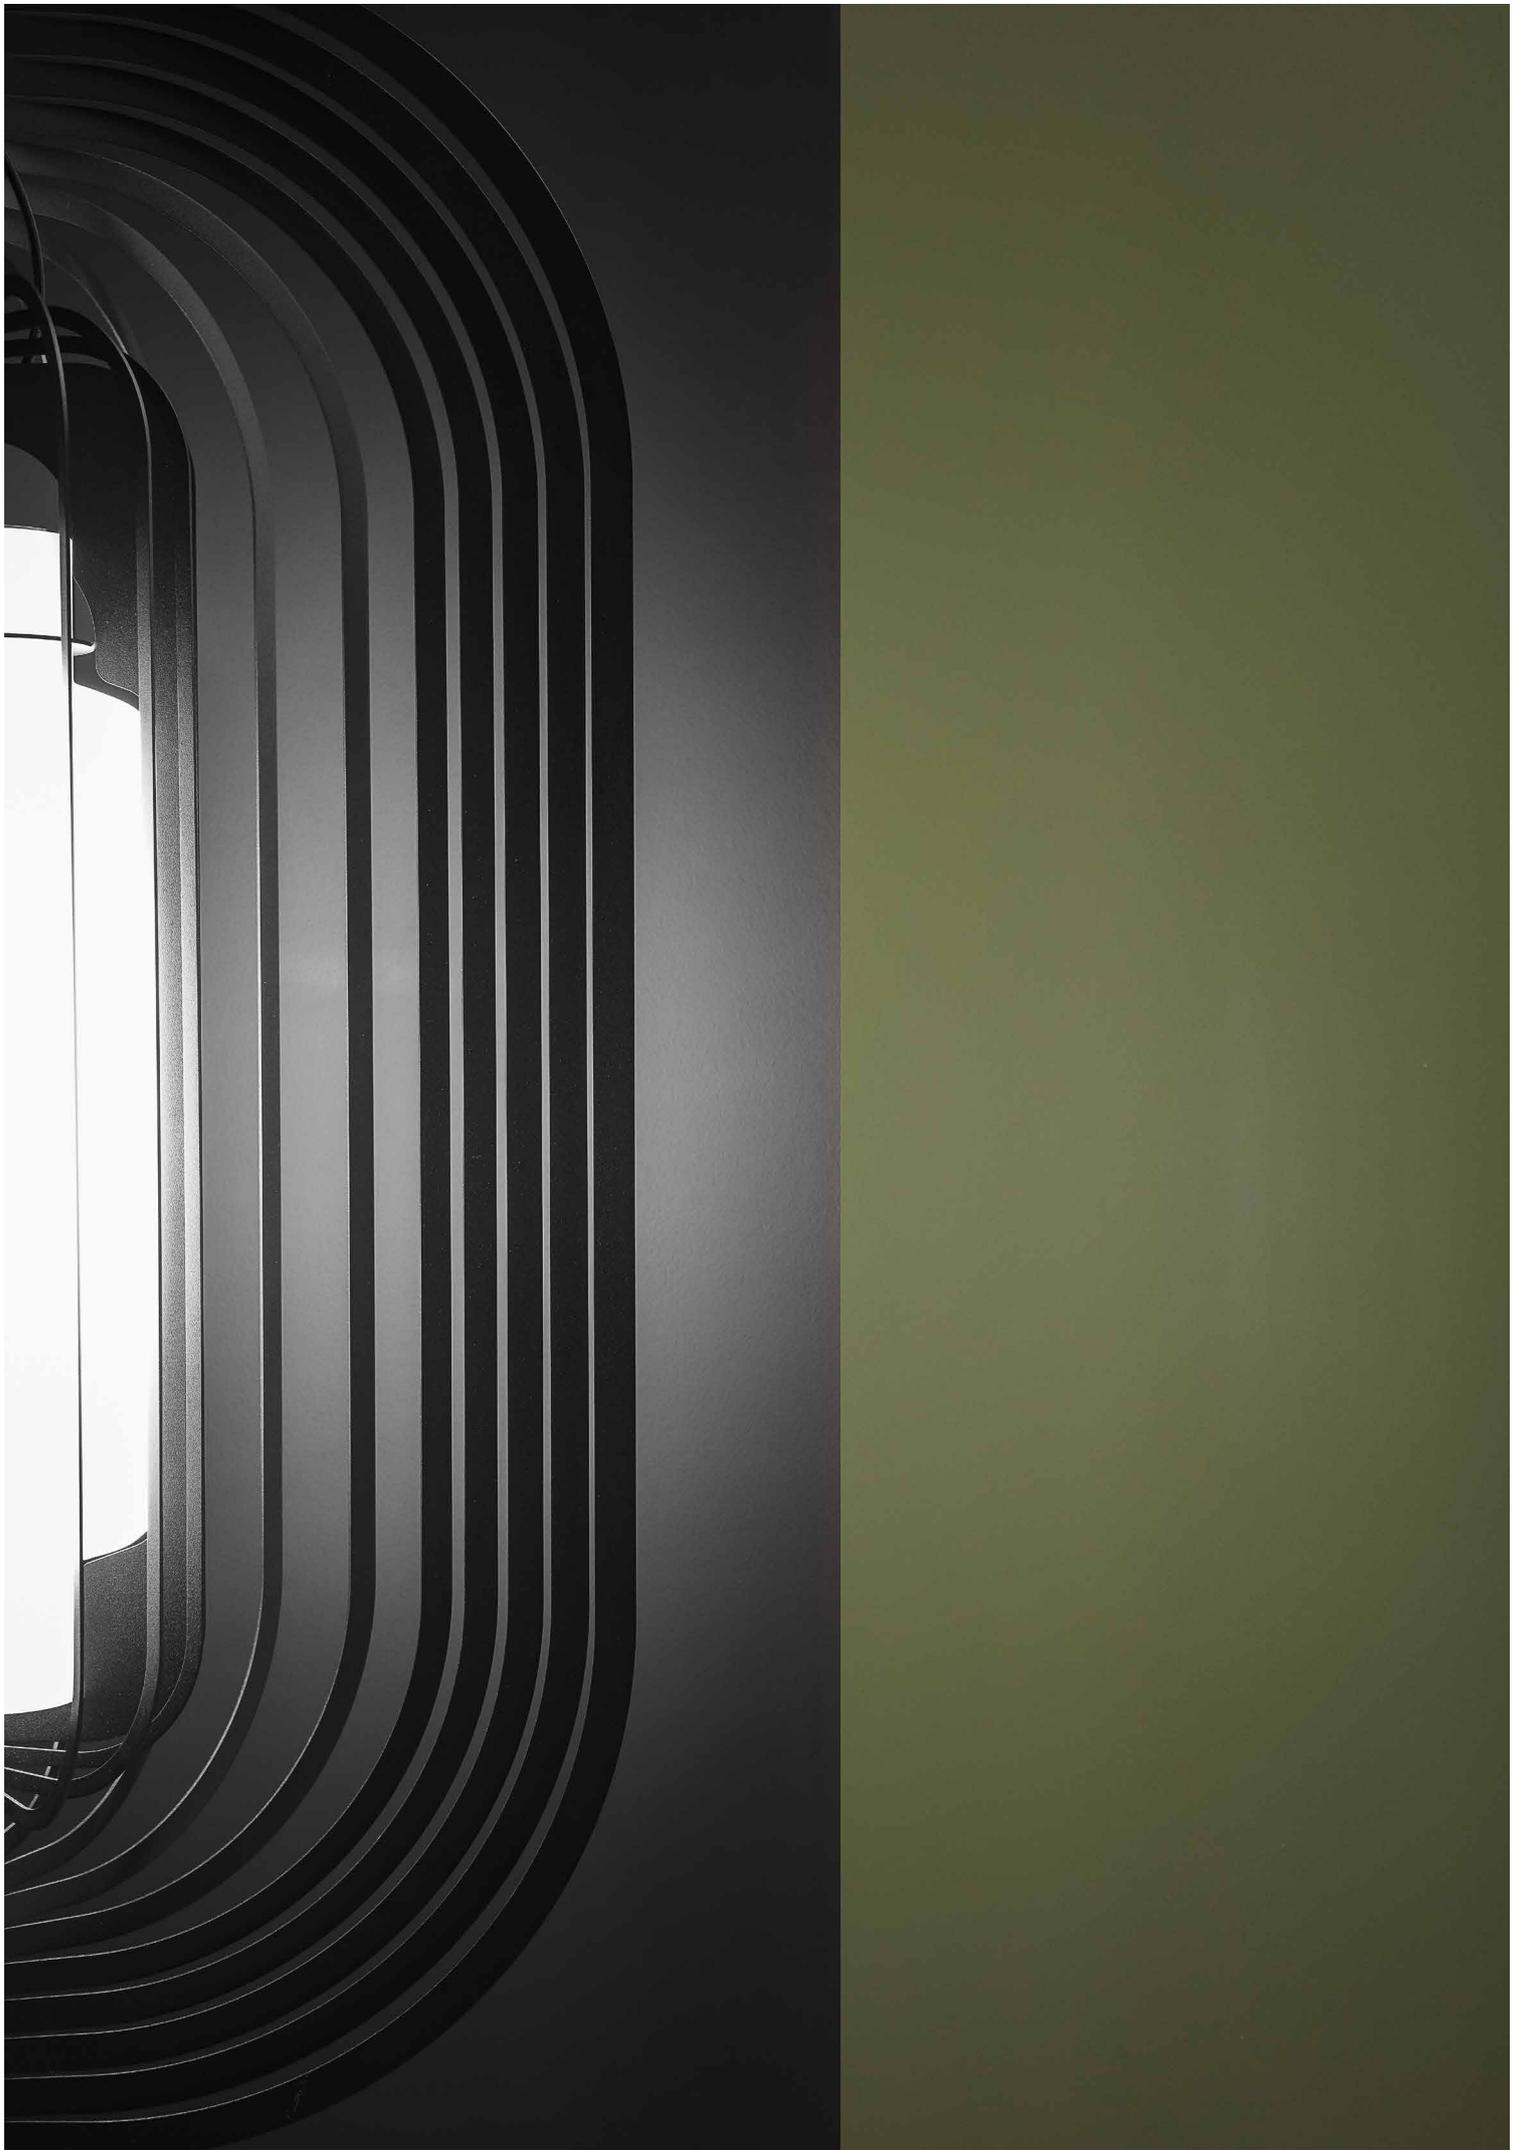

#WEAREDELTAUGHT

DELTAUGHT

The rectangular **SOIREE** suspensions embody flexibility, clarity and strength, resulting into a powerful object with a vivid personality.

SOIREE S

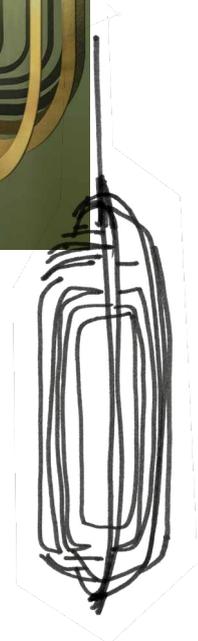

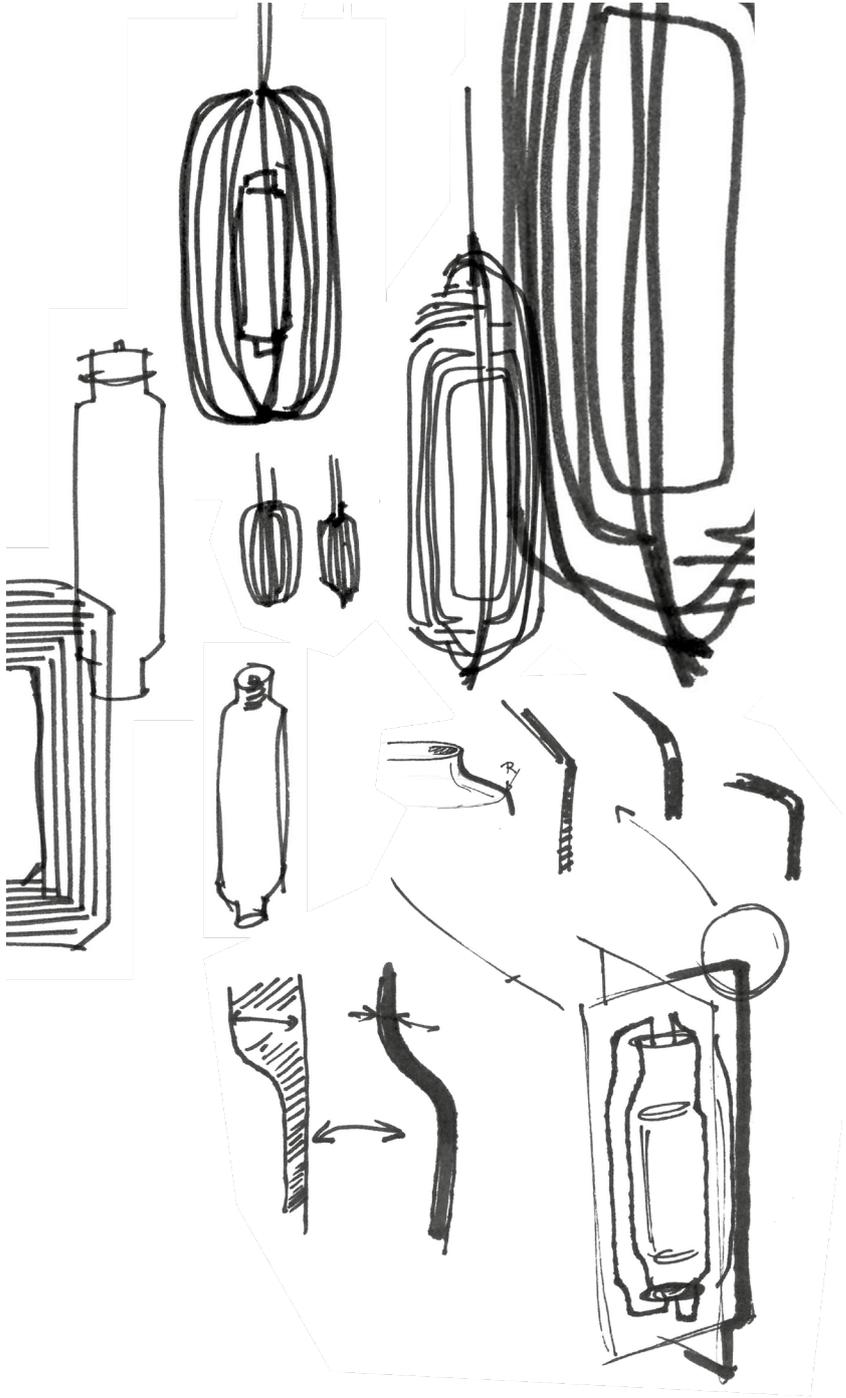

—
SOIRÉE S

When viewed from different sides, the circular or rectangular pattern changes at every angle.

The **SOIREE** lighting object succeeds effortlessly in putting the observer on the wrong foot with its surprising volume. Everywhere this eye-catcher is given space, it opens up a game of stylised forms and warm light. No matter how you look at it, stylish added value is guaranteed.

One **SOIREE** suspension makes a bold statement by itself, when combined to form a cluster of pendants it can create a more monumental installation. In any application, the **SOIREE** is ready for different combinations thanks to its multitude in shapes, colours and sizes. Either as a rhythmical counterpoint against a more minimalistic backdrop, or in a repetitive set-up above a long counter or room of tables... The **SOIREE** enhances rooms with its unique character, making both residential and commercial settings a bit more magical.

MILES

MILES is pure eye-candy.

A collection of 4 purely handcrafted glass shapes, each in 4 different colours (pink, amber, smoke or mist), each recognizable yet unique in all respects. A family of suspensions that play on the visual contrast between the coloured and white blown glass, combined with different shapes and colours, also ideal for multiple compositions.

All shapes and finishes are inspired by the interplay of opacity, translucency and transparency. Its translucent or milky forms and dynamic light offer a countless number of scenarios.

When switched off its transparency makes **MILES** almost disappear. When switched on they provide a cozy and stylish luminous presence, stimulating senses and perceptions.

MILES

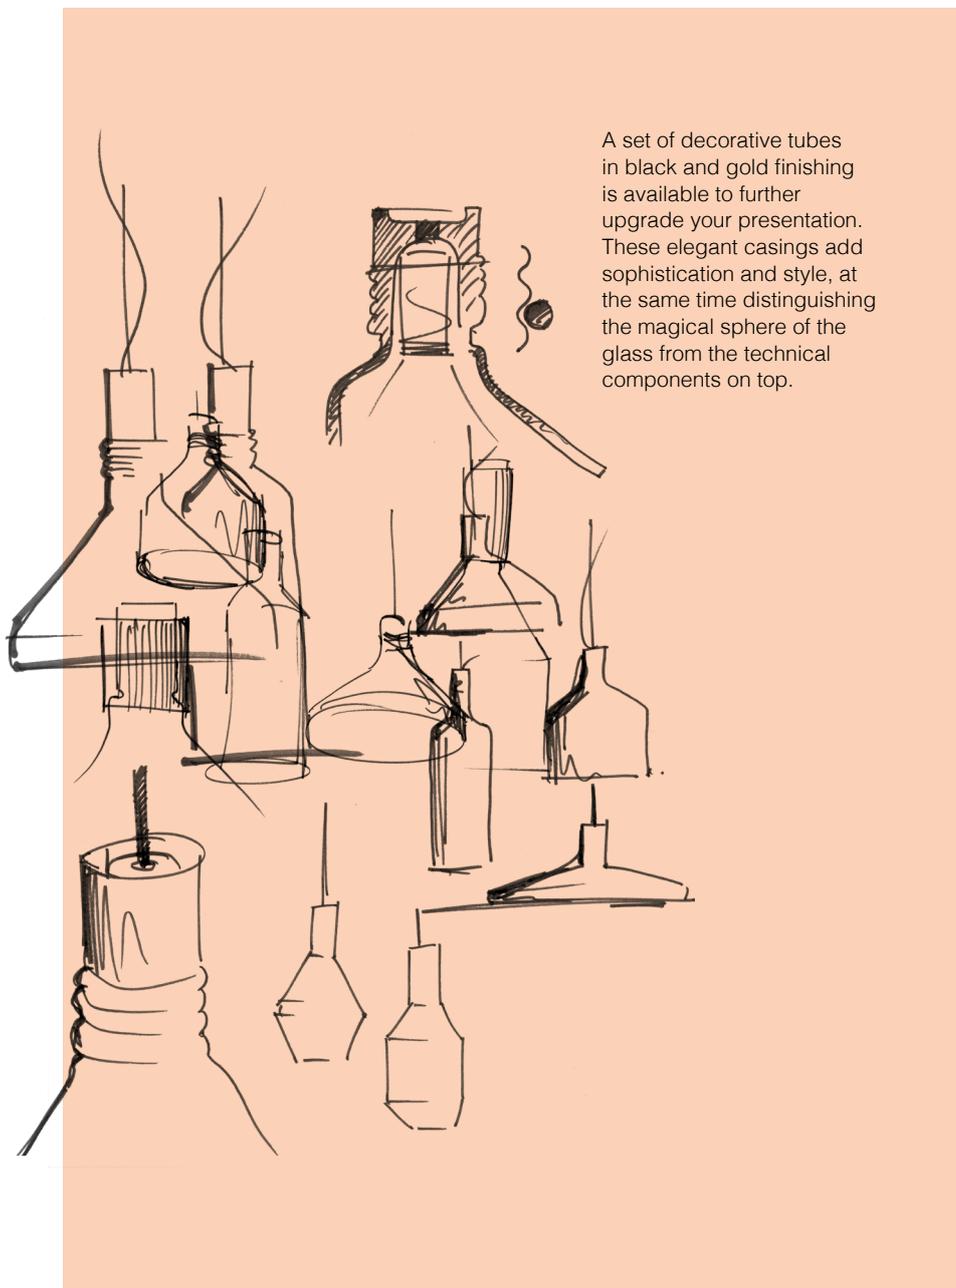

MILES is a family of figures differing in form, size and colour, spreading a calm, intimate atmosphere. The 4 **MILES** shapes each come in 2 different versions, either with an invisible LED source, or with E26 enabling you to opt for a classic or more expressive bulb.

MILES

The **MILES** shapes are designed to glow in clusters. Hung at various lengths, they create a majestic and sensual centrepiece wherever they are applied. A luxurious installation of clear and colourful glass shades.

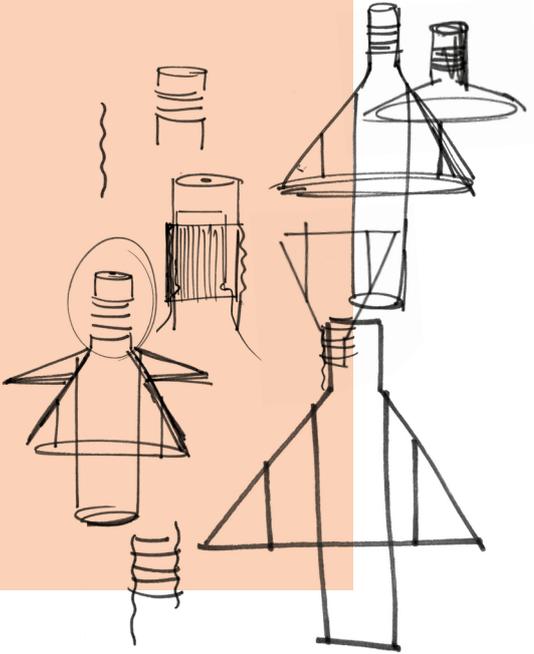

A set of decorative tubes in black and gold finishing is available to further upgrade your presentation. These elegant casings add sophistication and style, at the same time distinguishing the magical sphere of the glass from the technical components on top.

MILES

All **MILES** suspensions start from the same ribbed top, with a smooth transition to its four shapes. Each shape has its own unique character, yet every time starting from the same angle, ensuring a harmonious whole when used in a configuration.

MILES

MELLO

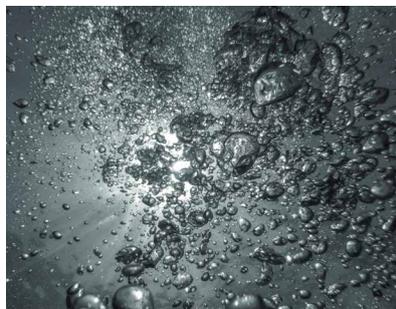

MELLO

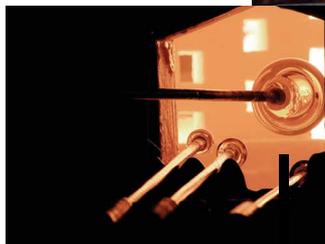

Our search for a more present and flamboyant suspension resulted into a co-operation with master glass blowers, with whom we worked on the balance between object and light, between subtle colours, densities and transparencies. The result is **MELLO**.

When turned off, its colours gain definition; when turned on, they disappear with gentle luminosity. The **MELLO** offers a sense of special intimacy with direct light on its below surfaces. At the same time enhancing the space with warmth, elegance and transparencies.

All shapes of the **MELLO** range are handmade, the result of expert craftsmanship and eye for detail.

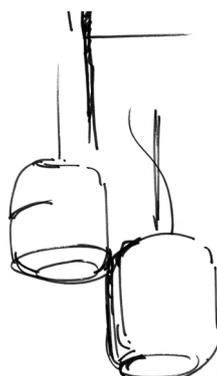

MELLO L

The elongated and lively pill-shape of the **MELLO L** adds vitamin to its surroundings. A dynamic flair that compliments the ambience of your space with its generous volume. Transparency and opacity are wisely dosed to achieve a glass that reflects light without glaring and without losing efficiency.

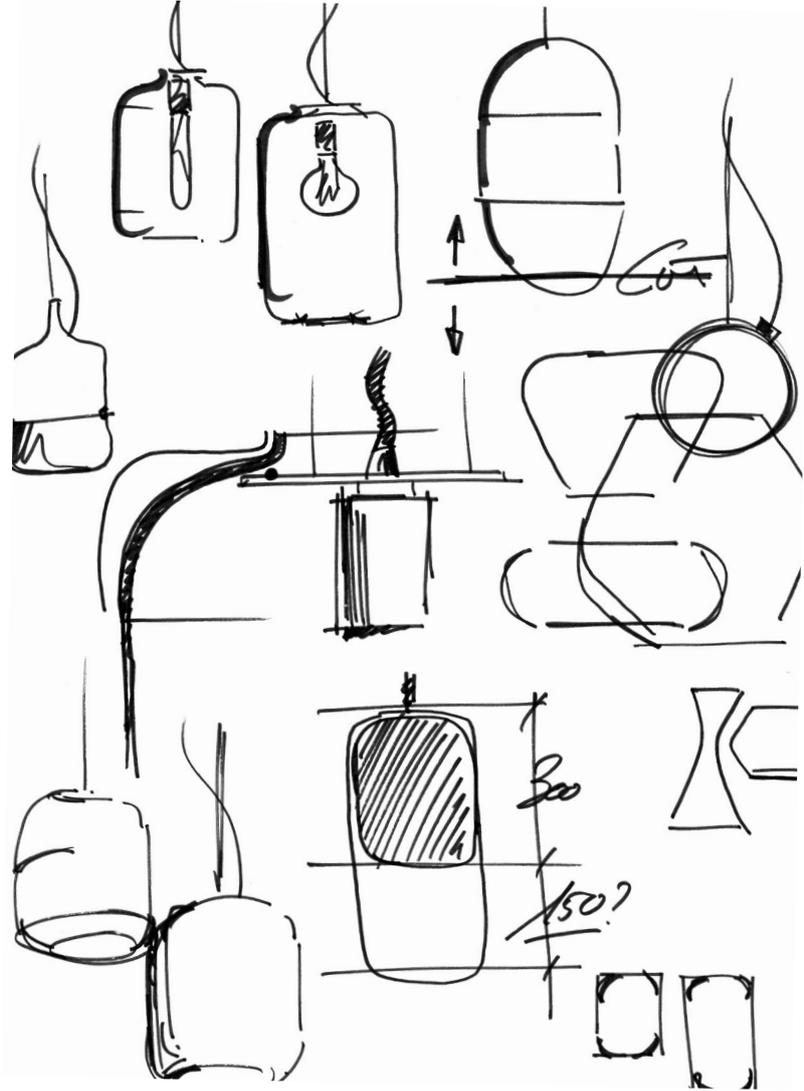

The **MELLO L** likes ample spaces in which to spread presence and lightness at the same time.

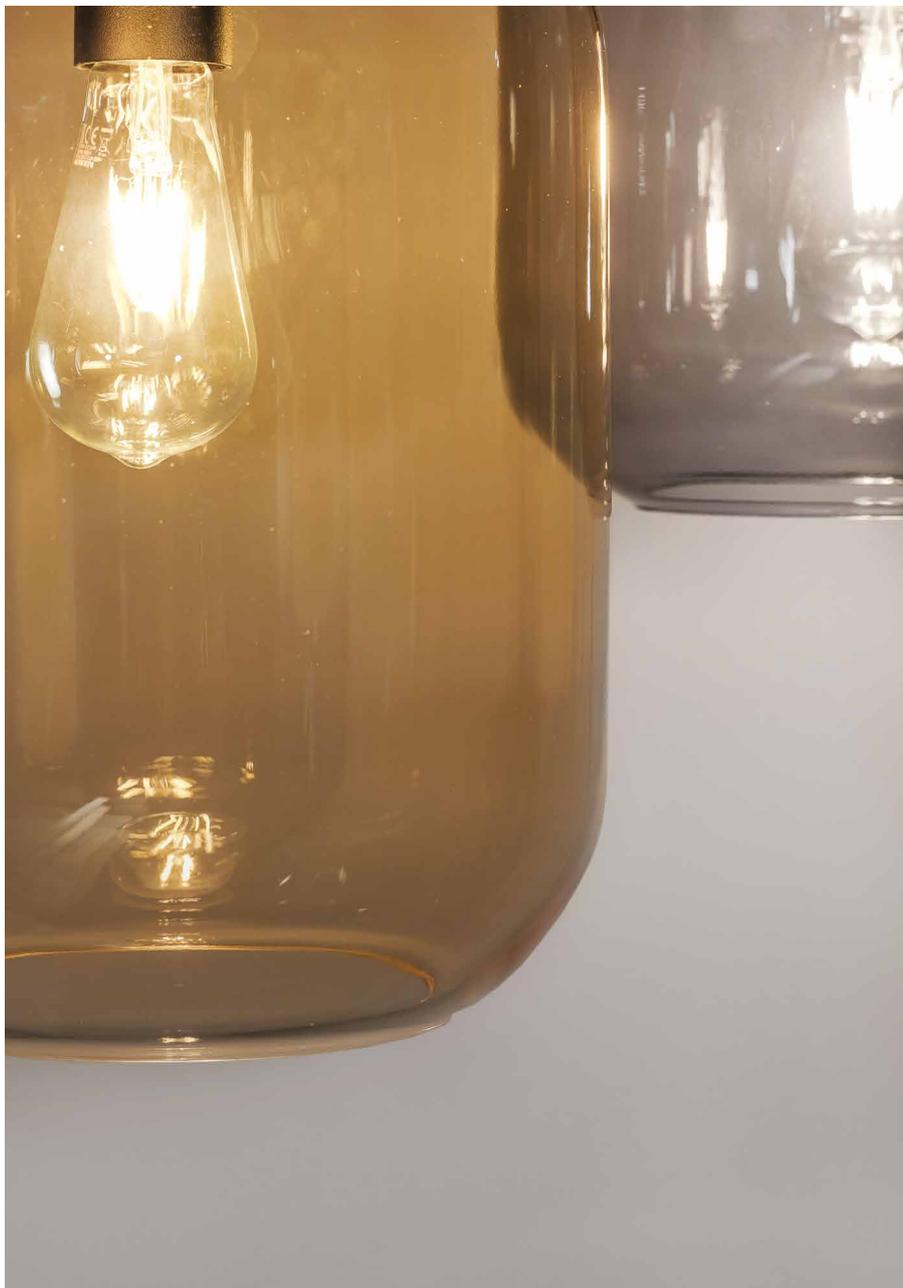

MELLO R

The **MELLO R** is a classic shape brought to life in contemporary new ways. This suspension lamp brings a poetic and recognizable design to new heights. It is entirely made of hand-blown glass, offering a gentle luminosity and warm joie de vivre.

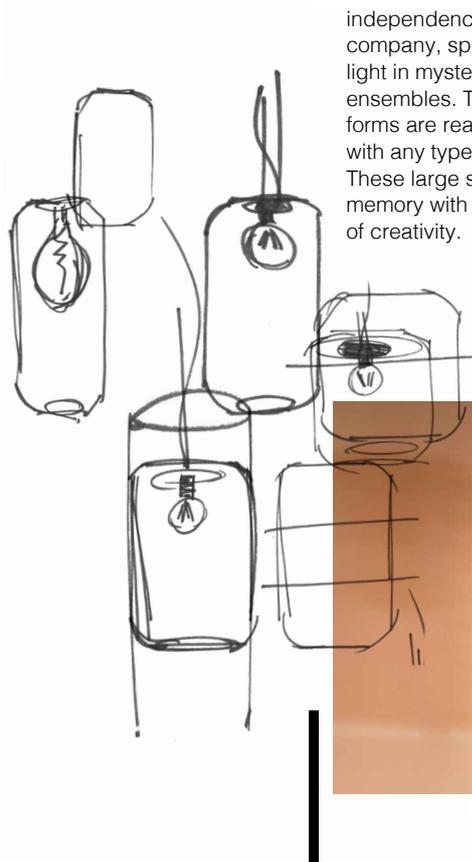

MELLO

The **MELLO** range enjoys independence but prefers company, spreading its warm light in mysterious but familiar ensembles. The different forms are ready for dialogue with any type of environment. These large spheroids can link memory with new forms of creativity.

The **MELLO R** comes in 3 sizes, the **L** version in 2 sizes. All versions come in pink, amber, smoked or mist colours.
