LED Betriebsgeräte

# Leuchten

 # Leuchten gibt an, wie viele Geräte an das Netzteil angeschlossen werden können (min -> max). Die Werte vor und nach dem 'l' entsprechen jeweils dem minimalen und maximalen Ansteuerstrom. Werte in Klammern gelten für 110V.

Min. Strom | Max. Strom

|                                                                                    |                                                                                                                  |                            |
