BOXY & BOXY R Hi (PAR16)

What once began as a cubic luminaire is now an elaborate family of surface mounted and pendant luminaires, both cubic and cylindrical shaped. Though different in shape, still uniform in look, as both shapes have a deeper recessed LED module with a conical, colored insert in front. While the deeper recessed LED module reduces the glare, the choice in color creates possibilities for playful and attractive lighting solutions.

Specification	
Installation Method:	4" junction box
Adjustability:	Fixed
Rating:	Damp
