M-VIZIR / HEDRA

Hedra & Vizir add refinement, finesse and color to the range. They are characterized by an atypical hinge, a design element that not only catches the eye, but also serves as storage for technical parts inside the luminaire. Both are available in the new Gold Colored anodization and Black Bronze finishes. While Vizir is smooth, the faceted design of the Hedra captures and reflects the ambient light with an ever-changing look as result.
