SLP-VIZIR / HEDRA MDL

Used with the Superloop Delta Light custom engineered 48V low voltage track. Hedra & Vizir add refinement, finesse and color to the range. They are characterized by an atypical hinge, a design element that not only catches the eye, but also serves as storage for technical parts inside the luminaire.

Hedra & Vizir are available in the new Gold Colored anodization and Black Bronze finishes, with polished texture. Vizir is a smooth cylinder, while Hedra is faceted.
